

PULSE 6

Portable speaker with JBL legendary sound and a customizable 360° lightshow

Sound you can see.

The JBL Pulse 6 lights up your listening with bold JBL legendary sound and an upgraded acoustic design that delivers deeper bass and a fuller, more expressive sound. AI Sound Boost analyzes your music in real time to unlock more loudness and impact while keeping everything clean and distortion-free.

The immersive 360° lightshow turns every track into a vivid, dynamic visual experience, with customizable patterns and colors that dance across the speaker body and flow seamlessly over the integrated handle. From energetic party themes to softer ambient looks, the Pulse 6 is designed to stand out—and it does.

Use the integrated handle to move the Pulse 6 from the dining room to the patio as the mood shifts. With up to 12 hours of playtime and IP68 waterproof and dustproof protection, this portable speaker moves with your mood, from sunny hangs to moonlit moments and nighttime wind-downs. When more friends arrive, sync it with other JBL Auracast™-enabled speakers, including JBL PartyBox speakers and PartyLight Sticks, so everyone can share in the music and the glow.

And when it's time to slow down, Sunset Mode helps you ease into the night. Set a countdown in the JBL One app and enjoy a warm blend of sound and light that gradually dims into a soft, orange-toned fade, creating a calm transition as you unwind. Later, if you need a little light after dark, the built-in smart sensor lets you double-tap the Pulse 6 to turn on a soft, comforting glow.

The Pulse 6 makes every moment brighter, bolder, and unmistakably yours.

Features

- ▶ JBL legendary sound
- ▶ Captivating choreographed lightshow
- ▶ Up to 12 hours of playtime
- ▶ Bedside tapping lamp
- ▶ Call it a night with Sunset Mode
- ▶ Keep playing, rain or shine
- ▶ Link up and play with Auracast™
- ▶ Pure sound with lossless playback
- ▶ Control it your way with the JBL One app
- ▶ Made with the planet in mind

PULSE 6

Portable speaker with JBL legendary sound and a customizable 360° lightshow

Features and Benefits

JBL legendary sound

JBL legendary sound delivers a fuller, more expressive listening experience, with its deeper bass driven by an upgraded acoustic design. AI Sound Boost analyzes your music in real time to keep everything clean and distortion-free even when you crank up the volume.

Captivating choreographed lightshow

Transform every track into a multi-sensory moment with a choreographed 360° lightshow that syncs to your music. An expanded selection of energetic party looks and soft ambient patterns dances across the speaker body and integrated illuminated handle, adding layered depth and movement that extends the glow beyond the speaker itself.

Up to 12 hours of playtime

Up to 12 hours of playtime keeps your sound and light going from daytime hangs to late-night wind-downs.

Bedside tapping lamp

When no music is playing, simply double-tap Pulse 6 to turn on a soft, comforting glow whenever you need a little light. It's a convenient way to find your way in the dark without reaching for your phone or turning on a brighter light source. Adjust brightness directly using the volume buttons, or fine-tune brightness and color temperature to match your mood in the JBL One app.

Call it a night with Sunset Mode

Sunset Mode is a soothing way to wind down for the night. Use the JBL One app to set a countdown of up to 60 minutes. The light gradually dims and fades out, while the music stops when the timer ends—creating a calm, natural transition that helps you slow down and unwind.

Keep playing, rain or shine

IP68 waterproof and dustproof protection means spills, splashes, sand, and sudden rain don't slow things down. Wherever the moment moves, the Pulse 6 keeps shining.

Link up and play with Auracast™

Expecting a crowd? Auracast™ lets you link the Pulse 6 with other Auracast™-enabled JBL speakers to expand your sound. Pair two speakers in stereo for a wider soundstage, or connect more as the party grows. You can also sync the lightshow with JBL PartyLight sticks to extend the glow even further.

Pure sound with lossless playback

Plug in and hear your playlists in their purest form. The JBL Pulse 6 supports lossless USB-C audio for high-quality streaming that hits every detail.*

*Requires compatible lossless audio content from supported apps/services.

Control it your way with the JBL One app

Download the JBL One app to unlock the full Pulse 6 experience. Explore a mix of energetic party looks and softer ambient themes, or pair mood-setting sounds with matching light effects to bring sound and light together in new ways. The app also lets you fine-tune your sound with intuitive EQ, link speakers with Auracast™, and ease into Sunset Mode—so you can easily shape the moment, your way.

Made with the planet in mind

The JBL Pulse 6 incorporates PVC-free post-consumer recycled metal. It's also packaged in FSC-certified paper printed with soy ink.
